Re: Tosco Corporation Amended Notice of Intention
to Commence Mining Operations

Dear Mr. Daniels:

In keeping with our earlier telephone conversation, I am enclosing three drawings which describe the location and the layout of the site for the proposed experimental mine shaft and the mine surface area and facilities related thereto. These drawings are preliminary and subject to further revision but I believe they will provide you with the level of detail to permit review of the application.

If any material changes are made we will advise you promptly. If you have any questions concerning these drawings or the application in general, please do not hesitate to call me.

Best regards.

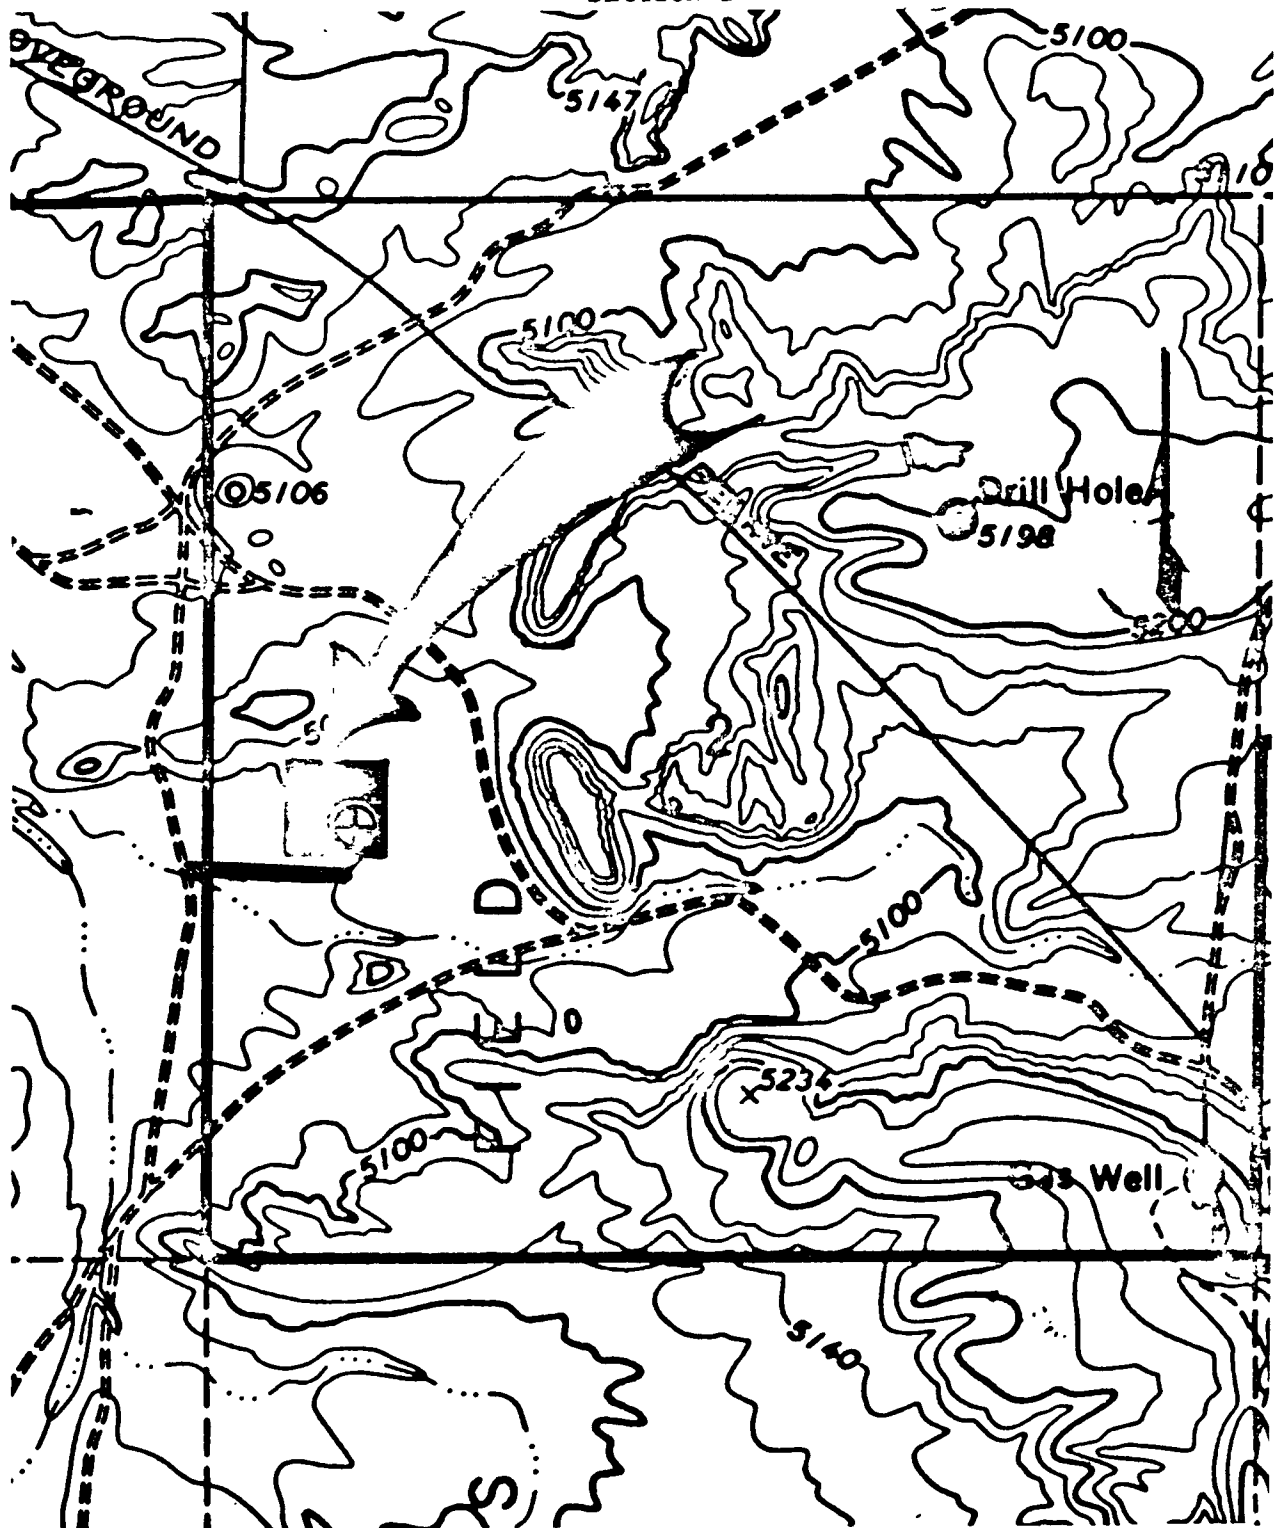

Very truly yours,

H. Michael Spence
